- Reduces stiffness and improves functional capability

- Improves joint mobility
- Diminishes the disease process
- Suitable for long term therapy

- Eliminates excess fluid build up
- Has no side effects

### AYUARTIS Capsule Contains:

Ingredients	Mode of Action
<i>Commiphora mukul</i> Extract	Used in the treatment of arthritis due to anti-inflammatory potential
<i>Boswellia serrata</i> Extract	Increases blood circulation and heals the connective tissues
<i>Paederia foetida</i> Extract	Helps reduce degeneration of the joints
<i>Trigonella foenum graecum</i> Extract	Anti-inflammatory, analgesic, immuno-modulatory
<i>Withania somnifera</i>	Anti-inflammatory, analgesic, immuno-modulatory

### Most important ingredients of AYUARTIS capsules are:

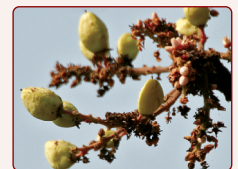

#### *Commiphora mukul* Extract:

- Stimulates the activity of white blood cells in the body, contributing to the build-up of the immune system
- Eliminates and expels dead tissues, wastes, and toxins from the body, like mucus and mineral deposits from the joints
- Reduces the major cause of sluggishness, inflamed joints and many painful conditions
- Has a direct anti-inflammatory effect

#### *Boswellia serrata* Extract:

- Is a gummy oleoresin, with unique anti-inflammatory action
- Reduces the inflammation by increasing the blood supply in the joints and effectively dampening or increasing synovial fluid in the joints, strengthening the cartilage, thus leading to faster healing
